REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The Applicant(s) having perfected priority, the previous rejections under 35 U.S.C. 102(e) are hereby withdrawn. The prior art does not disclose or suggest, alone or in combination, a device or method for compensating for chromatic dispersion in an optical waveguide grating by supplying a plurality of pulsed currents to a plurality of heaters, respectively, to produce a desired temperature distribution. The invention appears to provide a non-obvious method for controlling the electric current provided to the heaters in order to produce the desired temperature distribution in the waveguide grating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
